

Jeff Lee, John and Mary Rowan travelled to Kagera in October to successfully sort out administrative problems at the School.

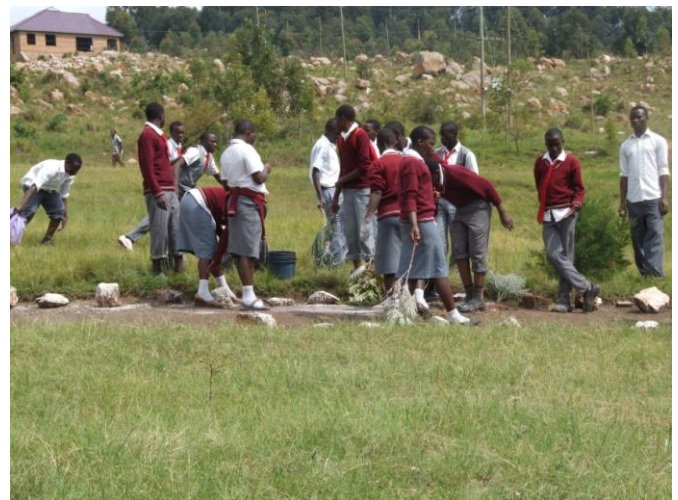

While there we were fortunate to be present at the fourth form Prize Giving for the school leavers.

To be there and see such excitement on the graduating young students faces and their proud parents! Education is the way forward to enable these young people to have a future in Tanzania. We now await the exam results.

Pupils painting the stones around the school paths with white paint in preparation for the Prize giving. Note the "brushes", (ends of branches of bushy trees)

Thank you to all who have contributed to the School this year. Without your help this school would not have been built and run for the benefit of these young students.

Happy Christmas
